EDUCATION

Stonehill College | Easton, MA
Bachelor of Science in Computer Science
Minor: Mathematics | **Major GPA:** 3.41

August 2022-May2026

WORK EXPERIENCE

Detections Engineering Intern | **Cisco – Secure Network Analytics** | Hybrid: Atlanta, GA May 2025-May 2026

- Collaborated on a sprint-based team to audit and document over 100 legacy network detections, translating proprietary analytics logic into clear technical documentation
- Reverse engineered detection logic into modern formats, including native JSON-based NDR rules and industry-standard Sigma rules, enabling migration to Cisco's next-gen detection platforms
- Leveraged AI tools to trace logic across repositories, automating code testing and generation while maintaining internal wiki documentation and supporting cross-functional collaboration and onboarding

Web Programming Intern | **Digital Innovation Lab** | Stonehill College January 2025-May 2025

- Redesigned and optimized an online platform to showcase student work in various media formats, ensuring scalability and ease of maintenance
- Collaborated with supervisor weekly to track progress, integrate feedback, and refine project objectives

Tutor – Data Structures | **Computer Science Department** | Stonehill College September-December 2024

- Facilitated learning and understanding of complex data structures concepts for undergraduate students
- Collaborated with professors to develop supplementary teaching materials and assist students in mastering problem-solving techniques and coursework

PROJECT EXPERIENCE

Holocron Qualitative Coding May 2026

- Led the Tools and Security teams for a 13-member capstone project, coordinating infrastructure, dev tooling, and security-related technical decisions
- Architected and deployed the project's full-stack infrastructure on DigitalOcean using Jenkins, Docker, Apache, PostgreSQL, React, and Django

ASL Machine Learning Detection April 2025

- Collaborated with a team of three to develop a computer vision model that detects and classifies American Sign Language (ASL) letters using Convolutional Neural Networks (CNNs)
- Trained and tested the model on labeled datasets, enabling real-time ASL letter prediction with high precision and reliability

Recipe Manager Full Stack Web Application April 2024

- Independently designed and developed a responsive frontend using HTML, CSS, and JavaScript. Developed the backend with Python and Flask framework. Employed SQLite database on the backend of the application

LEADERSHIP EXPERIENCE

President and Founder | **Stonehill Chess Club** | Stonehill College September 2023-May 2026

- Founded and established the college's current Chess Club, growing membership to over 30 active participants within the first year by organizing engaging events, tournaments, and weekly strategy sessions
- Directed multiple 90+ attendee intercollegiate chess tournaments with prize pools ranging from \$1500 to \$5000, bringing in participants from 10+ states, ranging from prospective students to master players
- Led and managed a team of executive board members to organize campus-wide events, collaborating with other clubs and securing funding, enhancing the club's impact

Second-Year Orientation Leader | **Stonehill College Orientation** | Stonehill College April 2023-August 2024

- Guided and mentored over 40 incoming students during the orientation program, fostering a welcoming environment and providing support to help them transition smoothly into college life

Resident Assistant | **Stonehill College Resident Assistant** | Stonehill College August 2025-May 2026

- Embodied servant leadership by directly supporting and organizing programs for approximately 230 residents
- Mediated conflict and facilitated conversations while maintaining discretion and providing relevant follow-up

Student Facilitator | **IDEAS in Chess** | Stonehill College January 2026-May 2026

- Personally mentored eight students in chess fundamentals and advanced concepts, progressing from basic lessons in piece movement to complex tactics used in competition-style gameplay
- Adapted lesson plans and activities to accommodate individual learning styles and skill levels
